

TJERNLUND PRODUCTS

Hearth Products Webinar

2012

Instructor: John Sterner

A. Description

This 30 minute webinar is designed to offer information and marketing strategies on the Hearth Products. It will provide an overview of products specific to fireplace and woodstove chimney draft, same room, room to room or level to level heat transfer and indoor make-up air options. It will cover the design and specifications, controls and the most typical applications. The instructor will give benefits of utilizing the equipment while providing the necessary information needed to promote and apply these systems.

B. Course Objective

1. To familiarize engineers, salesmen, contractors or any other learner with these Tjernlund Products, Inc. systems.
2. To provide the learner with the opportunity to understand the Hearth Products and the typical applications where these models are used.
3. To provide the necessary information needed to promote and apply these products.
